

KENJI

■ KJF -TYPE:PVDF

KJ/KJF SERIES

Close coupled self-priming
chemical pump

Characteristics:

- *Special design for shaft seal, use the latest Teflon Bellow seal with inner self-cooling design, without use the circulated cooling pipe.*
- *Excellent capability to self-priming. Extremely powerful self-priming force.*
Built with a check valve fully prevents liquid back-flow in pump.

Close coupled self-priming
chemical pump

- *FRPP and PVDF materials provide good corrosion-resistance to strong acid and alkali.*
- *Special design for strengthening construction*

■ KJ -TYPE:FRPP

KJ/KJF SERIES

Close coupled self-priming
chemical pump
